ANNUAL OPERATING BUDGET IMPACT (\$000)

DESCRIPTION

This project is to prepare final design documents for a new four-lane divided parkway as recommended in the North Bethesda/Garrett Park and Aspen Hill master plans. The roadway (5,100 linear feet) will be a closed section with a 10-foot wide bikepath on the north side and 5-foot wide sidewalk on the south side. The project includes a bridge over Rock Creek. The roadway limit is between Parklawn Drive on the west and the intersection of Veirs Mill Road and Parkland Road on the east. The project includes the tie-in to Parklawn Drive and Veirs Mill Road. Appropriate stormwater management facilities and landscaping will be included.

Service Area

North Bethesda-Garrett Park and Aspen Hill Area

JUSTIFICATION

This project will relieve traffic congestion on roadways in the area through increased network capacity. The project also provides improved safety for motorists, pedestrians, and bicyclists, as well as a greenway.

Plans and Studies

The North Bethesda/Garrett Park Master Plan classifies this roadway as A-270. At the completion of the Phase I Facility planning process, a project prospectus was completed in June 2004. This project will connect to the Montrose Parkway West and SHA MD 355/Randolph Road Relocation project.

STATUS

Preliminary design stage.

OTHER

This project provides only for the design of Montrose Parkway East. Construction is not programmed at this time.
